

SWIFT *Three* Series

First Cordless Tri-power Stereo with Top and Bottom LED

Coaxial, fine & coarse focus!

Unique Design

- ◆ There is no other microscope like this on the market
- ◆ 3 magnification options in one
- ◆ 2 Body options with a choice of 1X, 2X and 3X or 1X, 2X and 4X objectives

Versatility

- ◆ 360° Rotatable body facilitates shared viewing between 2 students
- ◆ Modular body and stand compatible with other Swift modular stereo microscopes
- ◆ Dual illumination switches allow for 3 light settings
- ◆ 5X, 15X and 20X eyepieces are optional for a wider range of magnification
- ◆ Reversible, opaque (solid B/W) and frosted, stage plates

Student-Proof

- ◆ Locked-on eyepiece and stage clips protect against users who itch to take things apart
- ◆ Slip-clutch system prevents users from damaging the focusing mechanism

Ease of Use

- ◆ Coaxial, fine and coarse focus system facilitates smooth focusing
- ◆ Left-eye diopter allows for increased focus acuity
- ◆ Eye tubes can be adjusted to each user's interpupillary distance
- ◆ Smooth-moving turret allows for easy objective changes
- ◆ Nyogel lubricant ensures smooth operation of all gears over a range of temperature

Light Source

- ◆ Cordless, rechargeable LED illumination, provides bright, white illumination
- ◆ Transmitted (bottom) and wide-beam incident (top) LED illumination
- ◆ High capacity rechargeable battery with virtually no memory, provides 40hrs of continuous operation with over 1000 life cycles

Guaranteed Quality

- ◆ Swift microscopes are built to withstand the rigors of continuous use and are backed by our Limited Lifetime Warranty*

* We define "lifetime" as 25 years in keeping with technical, industrial and historical data collected by Swift Optics over fifty years.
